In the SEPAR guidelines “Diagnosis and treatment of sleep apnea–hypopnea syndrome” (Arch Bronconeumol. 2011;47(3):143–56), the following errors have been detected:

- In Table 2 on page 144, (>3%) should be ( $\geq 3\%$ ).
- On page 147, in the *Cardiovascular morbidity* section, where it is first written *Hypoventilation-obesity*, this should be *Arterial hypertension (HTN)*. In the second instance, *Hypoventilation-obesity* should be *Cardiac insufficiency (CI)*. In the third instance, *Hypoventilation-obesity* should be *Arrhythmia*. And in the fourth and final instance, *Hypoventilation-obesity* should be *Ischemic heart disease (IHD)*.
- In Fig. 3 on page 148, >15 and/or BMI>30 should be and/or BMI>30. In the PSG section, which leads to two negative boxes, there should be one positive box on the left and one negative box on the right, each.
- In Fig. 5 on page 151,  $AHI/RDI \leq 30$  should be  $AHI/RDI \geq 30$ .
- In Fig. 6 on page 152, Chervin<sup>65,64</sup> should be Chervin<sup>64</sup>; where it is written *Suggestive of SAHS Table 6 and/or Chervin*, it should be *Suggestive of SAHS Table 7 and/or Chervin*. In the notes under the figure, where it says *Decision flowchart in childhood SAHS (mira al la ref. 64)*, it should say only *Decision flowchart in childhood SAHS*.
- In Fig. 7 on page 153, Uloberes 2000 should be Lloberes 2000.
